Kordian Pilarski

I'm a Junior Frontend Developer with patience for details. I've been interested in Web Development for few years. I've already made few websites for friends and a running group from my hometown.

I'm self-taught developer. My main source of knowledge are documentations, tutorials and courses from authors such as Maximilian Schwarzmüller, Colt Steele, Jonas Schmedtmann. I like to watch video tutorials on youtube from Kevin Powell, Web Dev Simplified.

About me

Im passionate about active free time spending, running and mountain hiking. I am actively contributing in my hometowns running group Wieluń Biega. In 2019 I organized a run in my hometown. It was a great experience to be able to do somenthing with passion.
